WHO ARE WE & WHAT DO WE DO

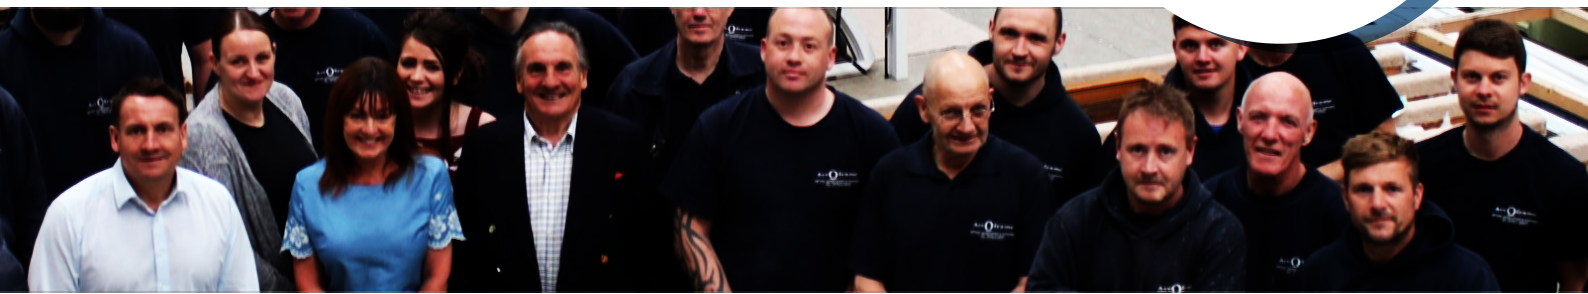

We are a family run company based in St Helens. From our modern, purpose built factory unit, we utilise the most appropriate products and techniques to create frames that meet with exact customer requirements.

We have in place, excellent Quality Management Systems, and our fabricators are trained to keep up with the latest industry standards for bespoke, hand finished frames.

We deliver frames across the UK with our own fleet of vehicles. Our aim is to keep the process simple, and to establish long lasting working relationships, with all of our customers. We will work with you to ensure that where possible we produce frames that suit your specifications; our customer service team will liaise regularly with you to meet with delivery schedules and deadlines.

We look forward to working with you.

A Great Range of Composite Doors

- Adjustable high security hinges
- Cassette system with 24mm toughened glass unit
- Multi point locking system that meet police preferred security specification by Winkhaus
- Optional automated locking available
- Fully sealed prevent water penetration
- Stylish handles with a “slamshut” option by Fab&Fix
- Stylish 180 letter plates suited to match the handle colour by Fab&Fix
- High thermal and sound insulation up to 9 times more insulation than a timber door.

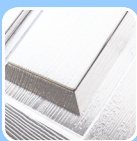

Arched
Combination Frame
with built in
Composite Door

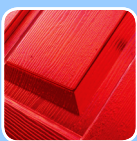

Beautiful to look at simple to maintain

- Pre-pigmented skins are easy to maintain
- Engineered composite rails and stiles
- Wood-grain effect is indistinguishable from timber
- Compression moulded, high definition panel display
- Energy efficient & environmentally friendly
- Comprehensive range of colour options available

Having a composite door built into the arched combination frame, eliminates the need to make separate frames and couple them together. This gives a professional appearance to the finished product.

Seamless Bends

NO MORE
UNSIGHTLY WELDS
ESPECIALLY ON
FOILED PRODUCTS

We have invested in the latest profile forming equipment and can now guarantee to get the optimum bend from the majority of profile systems currently available.

No more unsightly welds, especially on foiled products. We promise a beautiful Seamless Bend where possible on our arched frames.

Opening Circular Frames

We manufacture fixed, opening and pivot circular frames and boast a minimum diameter of 380mm on fixed, 480mm on opening and 750mm on pivots!

Working to the latest industry standards and techniques, we produce fixed, opening and full pivot windows. One of the most practical features is a frame that is fully reversible, accommodating ventilation and cleaning requirements in areas that are inaccessible from the outside. Our fabricators are experts in utilising materials and profile systems effectively to achieve the best outcome for all designs.

Working to precise measurements, we make frames that not only work as required but are also aesthetically perfect. Adjustable friction and safety restrict-ors are fitted as standard.

Lockable security catches are available on request
